# Centennial College and EffectiveAI Inc.

**Hackathon – Challenge outline**

CONFIDENTIAL

# Overview

In-Person Hackathon, 3 days starting Monday March 2, 2026 at 10am. Hackathon completes on Wednesday March 4th, 2026 at 4pm. The Hackathon will be held at Centennial College's WIMTACH facilities.

Participants are allowed to leave and return at any time but are not allowed to consult with others outside the team during the hackathon. Hours are 9-5 at Centennial.

Each team get 20 minutes to do a presentation and Demonstration on what they created, how it works, Key features, how they think they have exceeded other teams.

A max of 15 teams will be supported in this hackathon. Teams limited to max 5 members.

# Challenge

Paramedics both in the province of Ontario and worldwide have a very challenging job delivering medical aid to people in need, and transporting them to Hospitals for further care. In order to deliver their services, the paramedics must fill out many forms during their shifts and this is a time consuming activity.

Your mission is to create a system using AI processes and technologies to aid the paramedics in their daily tasks. Their "aid" or AI Assistant will interact with the paramedics in a friendly way and work with them to complete any form they wish and help with other routine tasks.

The AI Assistant must work interactively to complete the forms and deliver the completed form to the target email address provided. The AI Assistant can also provide additional assistance to the paramedic such as but not limited to schedule questions, weather, etc.

# Announcement:

# Online Resources

The following forms, reference materials, website, and images reflect what paramedics must work with as part of their daily responsibilities. They all reflect non-call and non-patient activities so there is no patient information or medical aspect. Paramedics are typically only on Emergency call 30-40% of the time so these activities reflect the other 60-70%.

The challenge for all teams is to review the resources, analyze how the medic interacts with it, and improve the interaction process. Strive to create an environment that is enjoyable to use and aids the medics as much as possible. Picture a medic who is at the end of a long shift and perhaps just had a difficult call. They need to use some/all of these systems before the end of their shift.

Each team can decide which form/forms to support and to what extent they will be supported.

## Form 1: Occurrence Report.

The occurrence report is typically on a non-patient and non-call event that the paramedic documents to say something out of the ordinary has occurred and they need to log it. They have to provide enough information so that their supervisor can follow up or action any required steps. It can be on a call if the incident does not involve the call specifically.

A good example of an incident report would be the case where an ambulance had a minor incident where they struck the ambulance base wall while backing up. Although it is not considered a formal accident, the vehicle does need to be looked at for damage, and the building also needs to be looked at to ensure no structural damage has occurred.

Teams should strive to help the medic complete the form and submit the data in a suitable format to be actioned. The HTML sample is included to help the teams. Completed forms can be submitted by email to Team00@EffectiveAI.net. Please initially have a manual step where the email if formed for review that would be sent…this reduces the number of emails received during testing.

Each Paramedic, aside from their own name, has a 5-digit medic number assigned to them by the Ministry of Health – Emergency Health Services. Mandatory fields have the red star at the end of the heading.

## REPORT DETAILS

OBSERVATION / DESCRIPTION OF EVENT *
Describe in detail what was observed during the occurrence...

ACTION TAKEN
Describe any immediate actions taken in response...

SUGGESTED RESOLUTION
Recommended steps to resolve or prevent recurrence...

MANAGEMENT NOTES
Notes for supervisory / management review...

## SUBMISSION INFORMATION

REQUESTED BY *
Name of requester

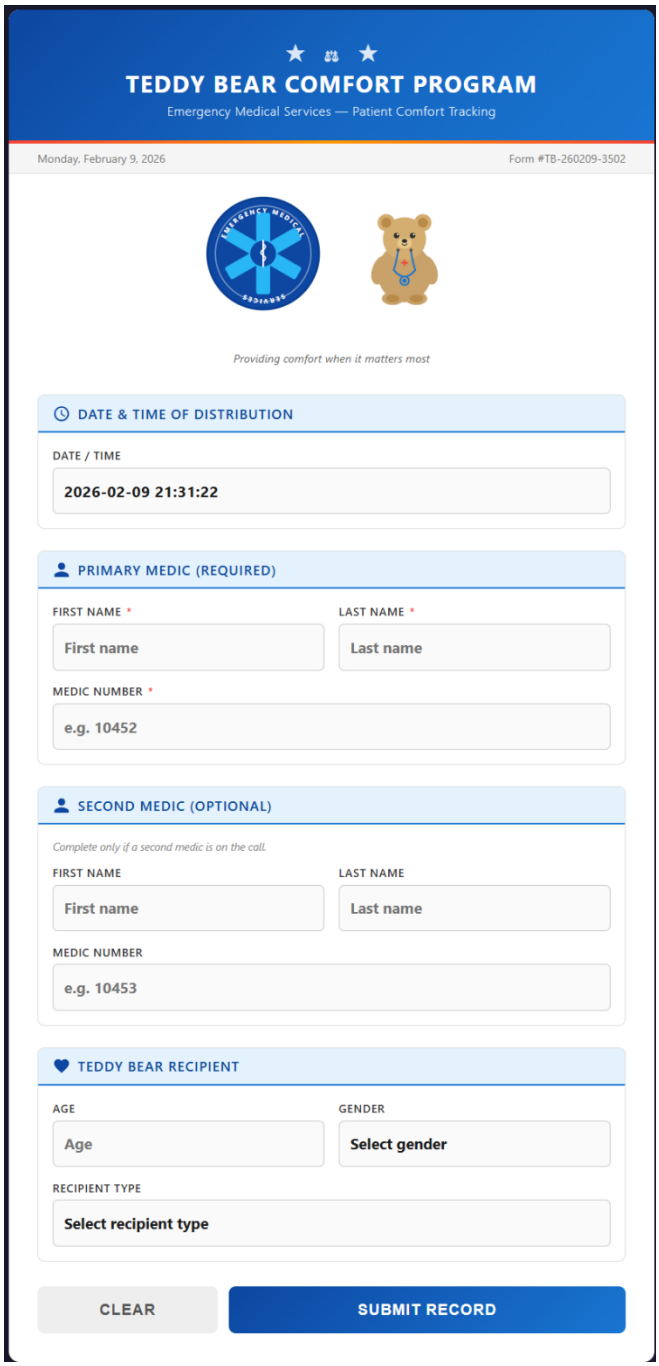
REQUESTED BY — DETAILS
Title, department, or contact info

REPORT CREATOR *
Name of person completing this form

CREATOR — DETAILS
Title, badge #, or contact info

Clear Form | Submit Report

## FORM 2: Teddy Bear Tracking Form.



This form allows the paramedics to track when they give a comfort Teddy Bear to a patient or bystander. Many services in Ontario have a teddy bear program.

Typically comfort bears are given to children who have been involved or bystanders in a difficult or traumatic situation. The recipient may be very upset, and the comfort bears greatly aid in comforting them.

The Recipient type is one of the following:

- Patient
- Family
- Bystander
- Other

Only one paramedic is required.

Gender is:

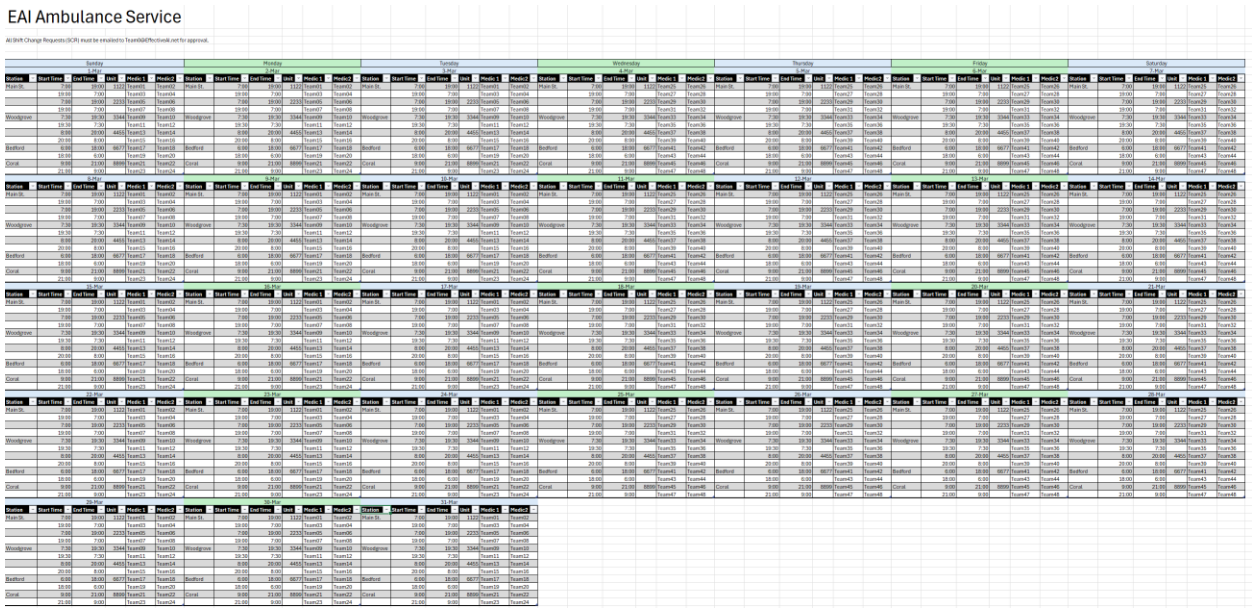
- Male
- Female
- Other
- Prefer not to say

Upon completion the form should be mailed both in print ready form and xml data.

Provided as a PNG screen Capture that could be used as a paper form at the scene. Completed forms can be submitted to Team00@effectiveAI.net.

# Form 3: Online Paramedic Shift Report.

Paramedic Shift Scheduling is a huge task due to the 24-hour rotating shift schedule that their environment requires.



EAI Ambulance Service

All Shift Change Requests (SCR) must be emailed to Team6@EffectiveAI.net for approval.

This will be online at [www.effectiveAI.net](http://www.effectiveAI.net) and available under the schedule buttons on the main page. Different months may be under different buttons, and the contents may change as shift change requests are processed.  Ideally the Teams solution should be able to answer any questions the paramedic may have about their shifts.

## Form 4: Paramedic Status Report.

This form can be downloaded from the EffectiveAI.net by clicking the Paramedic Status button on the home page. There is one form for all paramedics but pretend that it is generated for you and reflects your status. The solution should be able to answer questions about it as though it was the form that reflected their status.

These reports are typically generated as requested and reach out to various systems to get the current status of their certification and requirements. Below is a description of what each line means. Do not worry about how to update this form or provide any additional information to correct the form. Your solution should be able to interact with the medic to let them know their status.

**For Reference Only:**

ACRc: Stands for Ambulance Call Report completed and are sometime called Patient Call Reports. These are patient forms that have been started at the end of an emergency call but not signed and marked completed. Paramedics have 24 hours to complete their patient calls before they are overdue.

ACEr: Stands for Ambulance Call Evaluation. This is a peer/review team review of the completed ACR and issues were found. The paramedic must reply to these concerns/comments within one week of the review being flagged as requiring a response.

CERTdl: All paramedics in Ontario must maintain a valid class F Drivers License in order to operate an ambulance. If the renewal date has lapsed and a new valid drivers license image has not been sent, it should be brought to the medic's attention.

CERTva: All paramedics must maintain their vaccination and inoculation as prescribed by the Ontario Ministry of Health. If their status is not up to date, they must update the system.

CERT-CE: Indicated whether the medic is up to date on their continuous education. All medics must continually upgrade and refresh their education.

UNIF: Medic are allowed to order medic uniforms at set intervals throughout the year. If a uniform is damaged, they can request a new shirt, shoes, pants, etc.

CRIM: All medics are reviewed routinely through a criminal record check. If there are any issues they must be reviewed by administrative staff.

ACP: If the medic has upped their certification level to ACP (Advanced Care Paramedic)

VAC: Paramedics can request yearly vacation time and they require approval.

MEALS: When services get very busy they occasionally miss a meal. These are meal claim forms that are outstanding for approval.

OVER: Medics occasionally work overtime if they are on a call and their shift ends. These are overtime claim forms that are awaiting approval.

**Note:** Don't worry about the above categories, they are just examples...just include the info about the medics status in your solution if possible.

# Paramedic Checklist

## EffectiveAI Paramedic Services

All items must be checked before the start of each shift. Any outstanding items must be addressed within the response guidelines as outlined in the paramedic practice guidelines.

Paramedic: ALL

| Item | Type | Description | Status | # of Issues | Notes |
|---|---|---|---|---|---|
| ACRc | ACR Completion | Number of ACRs/PCRs that are unfinished | BAD | 2 | Each must be completed with 24 hours of call completion |
| ACEr | ACE Response | Number of ACE reviews requiring comment | GOOD | 0 | Complete outstanding within 1 week of BH review |
| CERT-DL | Drivers License | Drivers License Validity | GOOD | | Drivers License Status |
| CERT-Va | Vaccinations | Required vaccinations up to date | BAD | 1 | Vaccination Status as per guidelines |
| CERT-CE | Education | Continuous Education Status | GOOD | 0 | CME outstanding |
| UNIF | Uniform | Uniform credits | GOOD | 5 | Available Uniform order Credits |
| CRIM | CRC | Criminal Record Check | GOOD | 0 | Criminal Issue Free |
| ACP | ACP Status | If ACP, Cert Valid | GOOD | 0 | ACP Status is good if ACP |
| VAC | Vacation | Vacation Requested and approved | GOOD | 0 | Yearly vacation approved |
| MEALS | Missed Meals | Missed Meal Claims | GOOD | 0 | Missed Meal Claims outstanding |
| OVER | Overtime Req. | Overtime Requests outstanding | BAD | 1 | Overtime claims outstanding |
